HOWEVER, we still have not met our goal of \$250,000 pesos (about \$13,500 USD)! Remember that 100% will be applied to the annual cost of feeding our resident animals and those in foster care. All you have to do is click on the PayPal Donate button below for an instant donation. See the next page of this issue for more information including other ways to donate to our Pet Food Money Bank. You could also click [HERE](#) for a page on our website chock full of information.

Please don't delay, deposit funds today! Please spread the word and share this issue with friends and family. We really need your help!

We are very pleased to announce our July dental discount special! During July, our normal price of 700-1,000 pesos for teeth cleaning (cats and dogs) has been reduced by 20%!! For more details, see page 5 of this issue. Make an appointment for your cats and dogs today to reap the benefits of this savings! .

We are looking forward to the time when all our employees, friends, and neighbors will be vaccinated. Meanwhile, the S.P.A.'s protocol restricting visitors and volunteers is still in place. Adoptions and clinic visits require special precautions. We look forward to the day when our doors will be open to everyone again.

## July Pets of the Month

By Jayn Corral and Megan Gabel

Our July Pets of the Month are Jacinta and Malena (cats) and Dusty and Gypsy (dogs). Each one would make a great addition to your family!

Jacinta is a stunning silky, almost iridescent, all black athletic kitten. A contented lap-sitter, she gets along great with all her roommates. Malena is a unique black and white tuxedo kitten with a black nose and black spot on her face and a triangle badge on her chest. She is independent, yet curious and friendly. Both kittens are about 7 months old.

Six-month-old Dusty, a boy, is an adorable spaniel mix. A little over a year old, Gypsy, a girl, is a small, sheltie mix. Both dogs are happy campers - energetic, playful, full of love, and a lot of fun!

Adopt any of these Pets of the Month during July and receive a free adoption kit. Our adoption fee for cats and dogs is 600 pesos and includes all current vaccinations, deworming, sterilization, and more. To make the transition easier, at the time of adoption, you can obtain an adoption kit for a donation of 250 pesos. For dogs, the kit includes: leash, collar, starter food, a toy, and instructions. For cats, the kit includes: tote bag, temporary litter box, litter, scoop, starter food, and instructions.

Preview all our animals at [www.spasanmiguel.org](http://www.spasanmiguel.org) (Adopt Me pages) and meet them at the S.P.A., Los Pinos #7, Monday-Saturday between 11 and 2, 415-152-6124.

## The S.P.A.'s July Dental Discount Special Starts Now!

By Megan Gabel

July is dental discount month at the S.P.A. clinic. Improve your pet's dental health (by removing plaque and tartar) and overall health, quality of life, and general well-being by having your dog's or cat's teeth cleaned. S.P.A. residents Sugar and Nadia are looking forward to their dental cleanings. During July, our normal price of 700-1,000 pesos for teeth cleaning (cats and dogs) has been reduced by 20% (includes anesthetic and professional cleaning with ultrasonic scaler/polisher). Take advantage of this very popular special offer by calling 415-152-6124 for an appointment today!

Not only is dental care vitally important to your pet's teeth and gums, but proper dental care contributes to a longer life, something that I'm sure is near and dear to your hearts. Periodontal disease, an inflammation of a tooth's deep supporting structures, causes the build-up of plaque on the teeth. It is the most common ailment affecting cats and dogs and is preventable. According to the American Veterinary Dental College, periodontal disease may cause problems in the mouth and teeth and also "be associated with damage to internal organs in some patients as they age." It is often not treated until it is too late and has already done extensive damage.

Your pet can't tell you about teeth pain and will instinctively hide illness or weakness. It is up to you to be vigilant. Here are the signs to look for that indicate oral or dental disease:

- Bad breath
- Loose teeth
- Discolored teeth, yellowed from tartar
- Chewing from only one side
- Drooling or pawing at the mouth
- Avoiding your contact with their face
- Loss of appetite or weight

Please bring your beloved cats and dogs to the S.P.A. clinic for all their veterinary care. We have a terrific, well-equipped, on-site clinic with a wonderful vet, Dr. Omar Córdova. The S.P.A. can provide routine care for your pet (general check-up and vaccinations) and meet all your pet's needs, including diagnosing and treating medical issues, taking x-rays as necessary, performing sterilizations, other surgeries, and providing emergency care.

To avoid having a long wait, it is best to call for an appointment (415-152-6124). Our address is Los Pinos 7 and the clinic is open Monday-Saturday, 9-3, with extended hours on Tuesdays and Saturdays to 4. Tuesdays and Saturdays are discount days! Consultations and most vaccinations are reduced on those days.

## Eva in Charge of All Things

By Jayn Corral

Not unlike the U.S. Congress, Eva and I have diametrically opposing opinions. I have been known to say (quite often and honestly) that I prefer cats to humans and she adamantly and consistently says that she has no need for other cats and much prefers humans. We will never agree, but so be it. She probably has reasons for feeling that way, as do I.

Sometimes, it is beneficial to be very opinionated and demanding. Just ask Eva, who now enjoys her own private suite at the S.P.A. with room service and three-times daily cleaning. She has a view and can watch as the dogs and their walkers pass by as she enjoys the sun and gentle breezes. She loves human visitors and will saunter up to them, sit on their lap, and stretch to their shoulders to give a long hug.

On the other side of her space are the very cats that she believes should not be there. If one of them dares to peer at her through the barrier, she will howl, hiss, and growl as if the world is ending. The interloper usually back off, understanding that Eva is very serious.

Eva has progressed quite a bit. At first, she was defensive and would gently bite human volunteers. Now she reaches out with her front paws, no claws, to pull their hand close to her, and she only gives love bites. When she first arrived at the S.P.A., she was placed with another cat, Oreo. Eva has decided that the two of them can co-exist in their private suite and not have to deal with all the ne'er-do-wells on the other side.

Eva, an almost two-year-old beautiful calico, came to the S.P.A. with her three kids in April 2021. We suspect that there were more kids, but she isn't talking. With her kids gone, she is now a free woman without the responsibilities of raising a family. She has been spayed so her hormones are settling down. Yet being in a shelter with communal living is problematic for her. She desperately needs a home where she is the only cat and in charge of all things.

If you are looking for a cat to share your life with, please consider Eva. She will make a great partner. Adoption hours are Monday-Saturday, 11-2, Los Pinos 7, 415-152-6124.

## Canine Distemper, a Disease Preventable by Vaccination

By Megan Gabel

Canine Distemper Virus (CDV) is a highly contagious disease. In recent weeks, we have noticed a significant increase of dogs infected with CDV coming into the S.P.A. clinic. It is spread through direct contact (including sharing an infected dog's food or water bowl) and air exposure (i.e., a cough, sneeze, or bark). Females can spread the virus through the placenta to her puppies. CDV infects dogs and other animals. A multi-systemic disease, it can cause, respiratory, gastrointestinal, and neurological problems. It attacks and weakens the immune system, which lowers the dog's resistance and ability to fight off other infections. The survival rate and length of infection depend upon the strain of the virus and the strength of the dog's immune system. Too many times, the disease can be fatal.

What dogs are at risk?

- Young dogs (2-6 months of age) and unvaccinated puppies older than 6 weeks of age.
- Unvaccinated dogs of any age or breed.

Some of the common clinical signs of distemper include:

- Watery to pus-like discharge from eyes and nose.
- Fever of 103° F to 105° F (39.5° C to 41° C).
- Listlessness or lethargy.
- Loss of appetite and interest in drinking.
- Dry cough and then moist 'wet' cough.
- Vomiting, diarrhea, and nausea.
- Possible hyperkeratosis (thickening of the skin) of the paw pads and nose.
- In later stages, neurological signs include seizures, tremors, head tilt, partial or full paralysis, nystagmus (repetitive eye movements), and myoclonus (irregular involuntary contraction of a muscle).

Distemper is preventable by vaccinating your dog. A series of vaccinations is administered to puppies to increase the likelihood of building immunity. It is important to keep distemper vaccinations up-to-date throughout your dog's life and avoid any gaps in vaccinations.

Distemper can be diagnosed by your veterinarian through assessment of clinical symptoms and laboratory testing. There is no specific treatment for distemper. Once diagnosed, treatment typically consist of supportive care.

Vaccinations of all S.P.A. dogs are current and include canine distemper protection. So if you adopt Pammy or Georgina or any of our dogs, you can rest assured that they have been vaccinated.

We urge you to make an appointment with our veterinarian, Dr. Omar Córdova, for guidance concerning your dog's vaccination schedule. Located at Los Pinos 7, the S.P.A.'s on-site clinic is open Monday, Wednesday, Thursday, and Friday from 9-3 and Tuesday and Saturday from 9-4. Please call 415-152-6124 for an appointment.

## Rewarding Memberships

June's been a tough month for our family. Unexpectedly, our cat Chuckie went over the rainbow bridge June 14<sup>th</sup>. Some of you may remember his story. I wrote an article about "Chuckie the Fountain Cat" after he literally "fell into our lives" at 4 weeks old. He dropped from a high wall into deep water in May of 2013. He had 8 plus years as a loving and beloved pet, and brought us much joy. That's a pretty good run for a feral kitten that nearly drowned before he weighed a pound. Seems a long time ago. Seems like yesterday. Be grateful for your furies and love them every day.

We are grateful to **Anna Buchanan** (individual), **Rena Cochlin** (individual), and **Marthe Fraser** and **Marie Bulgin** (family) for renewing their memberships. Thank you. We couldn't do what we do without you.

You can join or renew online via PayPal through our website [HERE](#), in our office (by cash or check), or via other methods (see same website page). Please email [MembershipSPA@gmail.com](mailto:MembershipSPA@gmail.com) if you have questions. We accept checks for membership dues as follows: (1) by check (U.S. or Mexican) to **Sociedad Protectora de Animales de San Miguel de Allende, A.C.** (full name required by bank); or (2) by U.S. check to San Miguel Community Foundation (*for a U.S. tax receipt*) (mark for S.P.A.). Your membership dues (\$40/500 pesos-individual, \$50/600 pesos-family [2 members]) will help the S.P.A. continue its wonderful work caring for many of the unwanted cats and dogs of San Miguel while they wait for their forever homes.

-Randy
